GRAVIC UNIVERSITY

Course Evaluation

This is a sample course evaluation form that can be scanned with Gravic's Remark Office OMR® software. Remark Office OMR works with forms that you create with your word processor or other form design tool. You can print your forms on a regular laser printer, and scan them with almost any image scanner.

Forms can be filled in with pencil, pen, or most any other writing implement. Remark Office OMR reads the filled in bubbles and barcode information from these forms and you can then analyze your data using Remark Quick Stats®, a powerful reporting tool included with the program. Alternatively, you can use one of Remark Office OMR's 35 export formats to take your data to your favorite analysis package.
